Thank you for your interest in obtaining a standalone version of OrfPredictor software. As the software was developed when I worked at Concordia University, Montreal, Quebec, Canada, my former employer – Concordia University – requires that the software can only be released to users for academic use and can not be redistributed to other parties.

Receiving and using the software it means that you will abide by the following agreement: the software (OrfPredictor) you obtain will only be used for research purpose and will not be redistributed to other parties.

If you will use the software for commercial applications, please contact Dr. Adrian Tsang (tsang@gene.concordia.ca) at Concordia University for obtaining license for your use.

ACADEMIC SOFTWARE LICENSE AGREEMENT FOR END-USERS AT PUBLICLY FUNDED ACADEMIC, EDUCATION OR RESEARCH INSTITUTIONS FOR THE USE OF ORFPREDICTOR

You are consenting to be bound by and become a party to this agreement as the "Licensee". If you <u>do not agree</u> to all of the terms of this agreement, you <u>will not be</u> able to obtain nor use the standalone version of the software OrfPredictor free of charge, and you do not become a LICENSEE under this agreement.

LICENSEE desires to acquire a free non-exclusive license to use the Software for internal research purposes only.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, the parties agree as follows:

1. Definitions

"Licensed Software" means the specific version OrfPredictor pursuant to this Agreement.

2. License

  The Licensed Software is made available free of charge for the LICENSEE which is a non-profit educational, academic and/or research institution. The License is only granted for personal and internal use in research only at one Site, where a Site is defined as a set of contiguous buildings in one location. The software will be used at only one location of LICENSEE.
  The user and any research assistants, co-workers or other workers who may use the Software agree to not give the program to third parties or grant licenses on software, which include the Software, alone or integrated into other software, to third parties.

3. Ownership
  The software copyright belongs to Dr. Min at Youngstown State University (YSU) and Dr. Tsang at Concordia University.

4. Software Protection

 LICENSEE acknowledges that the Licensed Software is proprietary to the ownership in #3. The software code shall be treated as trade secrets and confidential information, and LICENSEE agrees to use best efforts to hold the same in confidence.
